

## Transport

Goodley Public School operates its buses on specific routes, for students from Nursery onwards. Route planning is done considering factors like availability of transport requests, availability of seats, common bus stops, etc. Every bus has a trained and eligible driver, a conductor, and a Teacher on duty. Every bus is equipped with GPS tracking device and a first aid kit duly checked.

Students using school transport are required to follow the guidelines as per the school code of conduct on school buses. In case of a change of address resulting in a change of route, parents should inform the school transport authorities in writing, in advance, to facilitate efficient planning.
